

LEARNING EXPERIENCE

BOMI Education Canada's Instructor-Led Online (ILO) is a virtual learning experience incorporating online resources and instructor support during a 15-week semester. The ILO delivery method allows learners who prefer an in-person classroom setting the opportunity to learn in an instructor-led online format.

Throughout the Instructor-Led Online course, learners will have access to a coursebook and Learning Portal resources, which include video presentations, key concept reviews, discussion forums, case studies, practice assessments, and other support resources to assist them with their career journey and exam success.

Benefit from networking and sharing best practices with your peers during the Make It Click® live review sessions, led by the instructor, allowing participants to review and share knowledge of course material together as a class.

IS THIS FORMAT FOR ME?

With Instructor-Led Online, you will benefit from a structured learning environment. Your instructor, an industry subject-matter expert, will post assignments weekly. Simply login at your convenience to complete the assignment!

The ILO learning experience is perfect for those who want instructor-led support, but are unable to attend a physical classroom location.

FEATURES & BENEFITS

**Schedule:**

15-week semester of instruction. Learners also have Learning Portal access for up to 6 months after the course starts.

**Delivery Format:**

A virtual learning experience enhancing the traditional instructor-led classroom delivery method.

**Learning Resources:**

Materials include chapter review quizzes, video presentations, and Make It Click® live review sessions, discussion forums, case studies, practice exam, and 24/7 access to those resources.

**Additional Features:**

When registering for an ILO course, learners receive the added benefit of an eBook or print book which they can keep as it is separate from the Learning Portal.
